

This diagram shows an exploded perspective view of a container assembly. It includes a main container body (10) with a rectangular opening (11) on its top surface. A lid (20) is positioned above the opening, with its edges (21) featuring protruding tabs. Two side latches (22) are shown, each with a hook-shaped end (41a) designed to engage with a corresponding slot (30) on the side of the container body (10).
